

**Guideline Overview**

Loans meeting the parameters outlined in these guidelines are consistent with the Dodd Frank Wall Street Reform Act Ability to Repay (ATR), Qualified Mortgage (QM) and TRID requirements. Documentation standards are designed so that loans are made to borrowers who have demonstrated the ability and have the capacity to repay the debt thus satisfying Ability-to-Repay standards.

**Program Qualifications**

This program offers a fixed rate option and an ARM option. Loans in this program **must be run through AUS whereby a DU Approve or LPA Accept recommendation is required.** Loans must be "ineligible" due to loan amount only. Loans must follow and meet all requirements of the DU or LPA approval in addition to any overlays referenced in these guidelines. Where these guidelines are silent, default to Fannie Mae guidelines.

<b>COVID-19 Attestation</b>	All borrowers must sign and date Impac's COVID-19 Attestation with regard to forbearance and the borrower's ability to repay the loan.
<b>Credit</b>	<p>DU or LPA determines acceptability of the borrower's credit. A DU Approve or LPA Accept recommendation is required whereby the only "ineligible" reason can be for the loan amount exceeding Conforming loan limits. All credit-related findings on the AUS cert must adhered to.</p> <p><u>Forbearance (COVID-19):</u> Lenders must continue to review the borrower's credit report to determine the status of all mortgage loans. In addition to reviewing the credit report, the lender must also apply due diligence for each mortgage loan on which the borrower is obligated, including co-signed mortgage loans and mortgage loans not related to the subject transaction, to determine whether the payments are current as of the note date of the new transaction. For the purposes of these requirements, "current" means the borrower has made all mortgage payments due in the month prior to the note date of the new loan transaction by no later than the last business day of that month. Examples of acceptable additional due diligence methods to document the loan file include:</p> <ul style="list-style-type: none"> <li>• A loan payment history from the servicer or third-party verification service</li> <li>• A payoff statement (for mortgages being refinanced),</li> <li>• The latest mortgage account statement from the borrower, and</li> <li>• A verification of mortgage.</li> </ul> <p>A borrower who is not current and has missed payments on any mortgage loan is eligible for a new mortgage loan if those missed payments were resolved in accordance with the requirements below:</p> <ul style="list-style-type: none"> <li>• <u>Reinstatement:</u> If the borrower resolved missed payments through a reinstatement, they are eligible for a new mortgage loan. The lender must document the source of funds in accordance with eligible sources of funds in FNMA's Selling Guide if the reinstatement was completed after the application date of the new transaction. Proceeds from a refinance may not be used to reinstate any mortgage loan.</li> <li>• <u>Loss Mitigation Solution:</u> If outstanding payments will be or have been resolved through a loss mitigation solution, the borrower is eligible for a new mortgage loan if they have made at least three timely payments as of the note date of the new transaction as follows: <ul style="list-style-type: none"> <li>• For a repayment plan, the borrower must have made either three payments under the repayment plan or completed the repayment plan, whichever occurs first. Note that there is no requirement that the repayment plan be completed.</li> <li>• For a payment deferral, the borrower must have made three consecutive timely payments following the effective date of the payment deferral agreement.</li> <li>• For a modification, the borrower must have completed the three-month trial payment period.</li> <li>• For any other loss mitigation solution not listed above, the borrower must have successfully completed the program, or made three consecutive full payments in accordance with the program.</li> </ul> <p><u>Verification that the borrower has made the required three timely payments may include:</u></p> <ul style="list-style-type: none"> <li>• A loan payment history from the servicer or third party verification service,</li> <li>• The latest mortgage account statement from the borrower, and</li> <li>• A verification of mortgage</li> </ul> <p>If these requirements are met on an existing mortgage loan being refinanced, the new loan amount can include the full amount required to satisfy the existing mortgage.</p> </li> </ul>
<b>Documentation</b>	<p>All income and asset documentation must be dated prior to the Note Date (e.g. paystubs, bank/account statements, etc.). In addition, when the borrower(s) is required to sign and/or date any document, that document must be signed and/or dated prior to the Note Date. The signature/date on the document cannot be obtained at closing. Examples include but are not limited to the following:</p> <ul style="list-style-type: none"> <li>• Personal and business tax returns</li> <li>• Credit inquiry letters</li> <li>• Letters of explanation</li> <li>• Gift letters</li> <li>• Lease agreements</li> <li>• Purchase contracts/addendums/counter offers</li> </ul>
<b>Escrows</b>	Unless required by applicable state law, escrow waivers are permitted. Escrows for flood insurance (if subject located in a flood zone) are required. Escrow holdbacks not permitted.
<b>Fraud Report</b>	A third-party fraud report is required to identify any borrower information discrepancies and indications of possible fraudulent activity.
<b>Geographical Locations/Restrictions</b>	<p><u>Ineligible States:</u> DE, MA, ME, MO, WY</p> <p><u>Additional Restrictions:</u></p> <ul style="list-style-type: none"> <li>• <u>Hawaii:</u> Lava zones 1 and 2 not eligible.</li> <li>• <u>Illinois:</u> Illinois Land Trust not allowed.</li> <li>• <u>New York:</u> CEMA not allowed.</li> <li>• <u>Texas:</u> 50(a)(6) not permitted.</li> </ul>

<p><b>Insurance</b></p>	<p><b>Homeowners Insurance</b>  Each borrower has the right to select his or her own insurance carrier to provide property insurance for the subject property, provided that the insurance policy and coverage meet Fannie Mae's requirements. This may include but is not limited to H0-6 Coverage, a Blanket Insurance Policy and liability insurance. The lender must ensure that the insurance carrier, policy, and coverage meet the requirements in the Fannie Mae Selling Guide.</p> <p><b>Rent Loss Insurance</b>  Not required</p> <p><b>Flood Insurance</b>  Flood insurance is required for any property located within any area designated by FEMA as an Area of Special Flood Hazard. Flood insurance should be in the form of the standard policy issued under the NFIP or by a private insurer. The terms and conditions of the flood insurance coverage must be at least equivalent to the terms and conditions of coverage provided under the standard policy of the NFIP for the appropriate property type. The Policy Declaration page of a policy is acceptable evidence of coverage.</p> <p>The amount of flood insurance provided by the NFIP or by a private insurer must meet Fannie Mae's minimum coverage requirements for the appropriate property type. Loans secured by properties that are covered by a blanket condo, HOA or similar group policy are not subject to escrow provided the policy meets the requirements under the Biggert-Waters Flood Insurance Reform Act of 2012 ("Biggert-Waters") and Homeowner Flood Insurance Affordability Act of 2014 ("HFIAA").</p> <p><b>Private Mortgage Insurance</b>  Not required</p>
<p><b>Liabilities</b></p>	<p><b>Alimony/Child Support:</b>  When payments will continue for more than 10 months, the payments must be considered as part of the borrower's recurring monthly debt obligations. However, voluntary payments do not need to be taken into consideration and an exception is allowed for alimony. A copy of the divorce decree, separation agreement, court order, or equivalent documentation confirming the amount of the obligation must be obtained. For alimony obligations, the lender has the option to reduce the qualifying income by the amount of the alimony obligation in lieu of including it as a monthly payment in the DTI.</p> <ul style="list-style-type: none"> <li>• For loan casefiles underwritten through DU, when using the option of reducing the borrower's monthly qualifying income by the monthly alimony payment, under Income Type, the lender must enter the amount of the alimony obligation as a negative amount.</li> </ul> <p><b>Business Debt in Borrower's Name:</b>  When a self-employed borrower claims that a monthly obligation that appears on his or her personal credit report (such as a Small Business Administration loan) is being paid by the borrower's business, the lender must confirm that it verified that the obligation was actually paid out of company funds and that this was considered in its cash flow analysis of the borrower's business. The payment does not need to be considered as part of the DTI if:</p> <ul style="list-style-type: none"> <li>• The account in question does not have a history of delinquency,</li> <li>• The business provides acceptable evidence that the obligation was paid out of company funds (such as 12 months of canceled company checks), and</li> <li>• The lender's cash flow analysis of the business took payment of the obligation into consideration.</li> </ul> <p>The payment must be considered as part of the DTI in any of the following situations:</p> <ul style="list-style-type: none"> <li>• If the business does not provide sufficient evidence that the obligation was paid out of company funds.</li> <li>• If the business provides acceptable evidence of its payment of the obligation, but the lender's cash flow analysis of the business does not reflect any business expense related to the obligation (such as an interest expense—and taxes and insurance, if applicable—equal to or greater than the amount of interest that one would reasonably expect to see given the amount of financing shown on the credit report and the age of the loan). It is reasonable to assume that the obligation has not been accounted for in the cash flow analysis.</li> <li>• If the account in question has a history of delinquency. To ensure that the obligation is counted only once, the lender should adjust the net income of the business by the amount of interest, taxes, or insurance expense, if any, that relates to the account in question.</li> </ul> <p><b>Court-Ordered Assignment of Debt:</b>  When a borrower has outstanding debt that was assigned to another party by court order (such as under a divorce decree or separation agreement) and the creditor does not release the borrower from liability, the borrower has a contingent liability. The lender is not required to count this contingent liability as part of the borrower's recurring monthly debt obligations. The lender is not required to evaluate the payment history for the assigned debt after the effective date of the assignment. The lender cannot disregard the borrower's payment history for the debt before its assignment.</p>

Debts Paid by Others:

Certain debts can be excluded from the borrower's recurring monthly obligations and the DTI:

- When a borrower is obligated on a non-mortgage debt - but is not the party who is actually repaying the debt - the lender may exclude the monthly payment from the borrower's recurring monthly obligations. This policy applies whether or not the other party is obligated on the debt, but is not applicable if the other party is an interested party to the subject transaction (such as the seller or realtor). Non-mortgage debts include installment loans, student loans, revolving accounts, lease payments, alimony, child support, and separate maintenance. See below for treatment of payments due under a federal income tax installment agreement.
- When a borrower is obligated on a mortgage debt - but is not the party who is actually repaying the debt - the lender may exclude the full monthly housing expense (PITIA) from the borrower's recurring monthly obligations if:
  - The party making the payments is obligated on the mortgage debt,
  - There are no delinquencies in the most recent 12 months, and
  - The borrower is not using rental income from the applicable property to qualify.

In order to exclude non-mortgage or mortgage debts from the DTI, the lender must obtain the most recent 12 months' canceled checks (or bank statements) from the other party making the payments that document a 12-month payment history with no delinquent payments.

When a borrower is obligated on a mortgage debt, regardless of whether or not the other party is making the monthly mortgage payments, the referenced property must be included in the count of financed properties.

Deferred Installment Debt:

Deferred installment debts must be included as part of the borrower's recurring monthly debt obligations. For deferred installment debts other than student loans, if the borrower's credit report does not indicate the monthly amount that will be payable at the end of the deferment period, the lender must obtain copies of the borrower's payment letters or forbearance agreements so that a monthly payment amount can be determined and used in calculating the borrower's total monthly obligations. For information about deferred student loans, see Student Loans below.

Federal Income Tax Installment Agreements:

When a borrower has entered into an installment agreement with the IRS to repay delinquent federal income taxes, the lender may include the monthly payment amount as part of the borrower's monthly debt obligations (in lieu of requiring payment in full) if:

- There is no indication that a Notice of Federal Tax Lien has been filed against the borrower in the county in which the subject property is located.
- The lender obtains the following documentation:
  - An approved IRS installment agreement with the terms of repayment, including the monthly payment amount and total amount due; and
  - Evidence the borrower is current on the payments associated with the tax installment plan. Acceptable evidence includes the most recent payment reminder from the IRS, reflecting the last payment amount and date and the next payment amount owed and due date. At least one payment must have been made prior to closing.

As a reminder, lenders remain responsible under the life-of-loan representations and warranties for clear title and first-lien enforceability. The payments on a federal income tax installment agreement can be excluded from the DTI if the agreement meets the terms in Debts Paid by Others or Installment Debt described above. If any of the above conditions are not met, the borrower must pay off the outstanding balance due under the installment agreement with the IRS.

Garnishments:

All garnishments with more than 10 months remaining must be included in the DTI.

Home Equity Lines of Credit:

When the mortgage that will be delivered also has a HELOC that provides for a monthly payment of principal and interest or interest only, the payment on the HELOC must be considered as part of the DTI. If the HELOC does not require a payment, there is no recurring monthly debt obligation so the lender does not need to develop an equivalent payment amount.

Installment Debt:

All installment debt that is not secured by a financial asset – including student loans, automobile loans, personal loans, and timeshares – must be considered part of the DTI if there are more than 10 monthly payments remaining. However, an installment debt with fewer monthly payments remaining also should be considered as a recurring monthly debt obligation if it significantly affects the borrower's ability to meet his or her credit obligations. See above for treatment of payments due under a federal income tax installment agreement.

**Note:** A timeshare account should be treated as an installment debt regardless of how it is reported on the credit report or other documentation (that is, even if reported as a mortgage loan).

Lease Payments:

Lease payments must be considered in the DTI regardless of the number of months remaining on the lease. This is because the expiration of a lease agreement for rental housing or an automobile typically leads to either a new lease agreement, the buyout of the existing lease, or the purchase of a new vehicle or house.

Loans Secured by Financial Assets:

When a borrower uses their financial assets – life insurance policies, 401(k) accounts, individual retirement accounts, certificates of deposit, stocks, bonds, etc. – as security for a loan, the borrower has a contingent liability.

The lender is not required to include this contingent liability as part of the DTI provided the lender obtains a copy of the applicable loan instrument that shows the borrower's financial asset as collateral for the loan. If the borrower intends to use the same asset to satisfy financial reserve requirements, the lender must reduce the value of the asset (the account balance, in most cases) by the proceeds from the secured loan and any related fees to determine whether the borrower has sufficient reserves.

Open 30-Day Charge Accounts:

Open 30-day charge accounts require the balance to be paid in full every month and are not included in the DTI. For open 30-day charge accounts that do not reflect a monthly payment on the credit report, or 30-day accounts that reflect a monthly payment that is identical to the account balance, lenders must verify borrower funds to cover the account balance. The verified funds must be in addition to any funds required for closing costs and reserves.

**Note:** DU will include the balance of the 30-day charge accounts on the loan application in the Reserves Required to be Verified amount shown on the DU Underwriting Findings report. However, for transactions that do not require the verification of reserves, the balance of 30-day charge accounts in the Reserves Required to be Verified amount will be reduced by any cash out the borrower will receive through the transaction.

If the borrower paid off the account balance prior to closing, the lender may provide proof of payoff in lieu of verifying funds to cover the account balance.

Other Real Estate Owned—Qualifying Impact:

When the borrower owns mortgaged real estate, the status of the property determines how the existing property's PITIA must be considered in qualifying for the new mortgage transaction. If the mortgaged property owned by the borrower is

- An existing investment property or a current principal residence converting to investment use, the borrower must be qualified in accordance with, but not limited to, Fannie Mae guidelines for Rental Income, Minimum Reserve Requirements, and, if applicable, Multiple Financed Properties for the Same Borrower;
- An existing second home or a current principal residence converting to a second home, the PITIA of the second home must also be counted as part of the borrower's recurring monthly debt obligations; or
- If the borrower's current principal residence is pending sale, but the transaction will not close with title transfer to the new owner prior to the subject transaction, and the borrower is purchasing a new principal residence, the current PITIA and the proposed PITIA must be used in qualifying the borrower for the new mortgage loan. However, Fannie Mae will not require the current principal residence's PITIA to be used in qualifying the borrower as long as the following documentation is provided:
  - The executed sales contract for the current residence, and
  - Confirmation that any financing contingencies have been cleared.

Property Settlement Buyout:

When a borrower's interest in a property is bought out by another co-owner of the property, as often happens in a divorce settlement, but the lender does not release the borrower from liability under the mortgage, the borrower has a contingent liability. If the lender obtains documentation to confirm the transfer of title to the property, this liability does not have to be considered as part of the DTI.

Rental Housing Payment:

The housing payment for each borrower's principal residence must be considered when underwriting the loan. For the following scenarios, the borrower's monthly rental housing payment must be evaluated (if the borrower does not otherwise have a mortgage payment or no housing expense):

- For non-occupant borrowers, and
- For second homes or investment properties.

The following list provides examples of acceptable documentation to verify the rental payment:

- Six months canceled checks or equivalent payment source;
- Six months bank statements reflecting a clear and consistent payment to an organization or individual;
- Direct verification of rent from a management company or individual landlord; or
- A copy of a current, fully executed lease agreement and two months canceled checks (or equivalent payment source) supporting the rental payment amount.

Revolving Charge/Lines of Credit:

Revolving charge accounts and unsecured lines of credit are open-ended and should be treated as long-term debts and must be considered part of the DTI. These tradelines include credit cards, department store charge cards, and personal lines of credit. Equity lines of credit secured by real estate should be included in the housing expense. If the credit report does not show a required minimum payment amount and there is no supplemental

	<p>documentation to support a payment of less than 5%, the lender must use 5% of the outstanding balance in the DTI.</p> <p>For DU loan casefiles, if a revolving debt is provided on the loan application without a monthly payment amount, DU will use the greater of \$10 or 5% of the outstanding balance as the monthly payment when calculating the DTI.</p> <p><u>Student Loans:</u> If a monthly student loan payment is provided on the credit report, the lender may use that amount for qualifying purposes. If the credit report does not reflect the correct monthly payment, the lender may use the monthly payment that is on the student loan documentation (the most recent student loan statement) to qualify the borrower.</p> <p>If the credit report does not provide a monthly payment for the student loan, or if the credit report shows \$0 as the monthly payment, the lender must determine the qualifying monthly payment using one of the options below.</p> <ul style="list-style-type: none"> <li>• If the borrower is on an income-driven payment plan, the lender may obtain student loan documentation to verify the actual monthly payment is \$0. However, the lender must project the real estate taxes if one of the following applies:</p> <ul style="list-style-type: none"> <li>• For purchase and construction-related transactions, the lender must use a reasonable estimate of the real estate taxes based on the value of the land and the total of all new and existing improvements. For example:             <ul style="list-style-type: none"> <li>○ For a municipality with a 10-year abatement, the lender may qualify the borrower with the reduced tax amount;</li> <li>○ For a municipality with a 10-year abatement and with annual real estate tax increases in years 1 through 10, the lender must qualify the borrower with the annual taxes that will be required at the end of the 5th year after the first mortgage payment date.</li> </ul> </li> </ul> <p>The lender has the option to project the real estate taxes if the amount of taxes will be reduced based on federal, state, or local jurisdictional requirements. However, the taxes may not be reduced if an appeal to reduce them is only pending and has not been approved.</p>
<p><b>Minimum Loan Amount</b></p>	<p>Minimum loan amount is \$1 over the FHFA county loan limits as specified for the state/county and number of units (i.e. loan amount cannot be eligible for Conventional Conforming or High Balance financing).</p>

	<p>For DU loans, DU will determine the number of financed properties for the loan casefile based on the following approach:</p> <ul style="list-style-type: none"> <li>• If the number of financed properties field is completed, DU will use that as the number of financed properties. The lender must complete this field with the number of financed one-to four-unit residential properties (including the subject transaction) for which the borrower(s) are personally obligated.</li> <li>• If the number of financed properties field is not provided, DU will use the number of residential properties in the Real Estate Owned (REO) section that include a mortgage payment, or that are associated with a mortgage or HELOC in the liabilities section of the loan application, as the number of financed properties.</li> <li>• If the number of financed properties field and the REO information was not provided, DU will use the number of mortgages and HELOCs disclosed in the liabilities section of the loan application as the number of financed properties.</li> <li>• When none of the information above is provided on the loan application, DU will use the number of mortgages and HELOCs disclosed on the credit report as the number of financed properties.</li> </ul> <p><b>Note:</b> In order to account for the subject property, DU will add “1” to the number of financed properties on purchase and construction transactions when the REO section, number of mortgages on the application, or number of mortgages on the credit report are used as the number of financed properties.</p> <p><u>Calculation of Reserves for Multiple Financed Properties:</u>          If the borrower owns other financed properties, additional reserves must be calculated and documented for financed properties other than the subject property and the borrower’s primary residence. The other financed properties reserves amount must be determined by applying a specific percentage to the aggregate of the outstanding unpaid principal balance (UPB) for mortgages and HELOCs on these other financed properties. The percentages are based on the number of financed properties:</p> <ul style="list-style-type: none"> <li>• 2% of the aggregate UPB if the borrower has one to four financed properties,</li> <li>• 4% of the aggregate UPB if the borrower has five to six financed properties, or</li> <li>• 6% of the aggregate UPB if the borrower has seven to ten financed properties.</li> </ul> <p>The aggregate UPB calculation does not include the mortgage and HELOCs that are on</p> <ul style="list-style-type: none"> <li>• The subject property,</li> <li>• The borrower’s principal residence,</li> <li>• Properties that are sold or pending sale, and</li> <li>• Accounts that will be paid by closing (or omitted in DU on the online loan application)</li> </ul>
