

NQM 1099 Program – Underwriting Guidelines

Guideline Overview

Loans meeting the parameters outlined in these guidelines are consistent with the Dodd Frank Wall Street Reform and Consumer Protection Act's requirement that a borrower have the Ability to Repay the mortgage loan. Documentation standards are designed so that loans are made to borrowers who have demonstrated the ability and have the wherewithal to repay the debt. This program requires review and verification of documentation to ensure that the loan meets Ability-to-Repay (ATR) standards. In regard to any underwriting criteria not specifically addressed in this document, Fannie Mae standards apply.

Program Qualifications

This program is designed for borrowers who are commission based or independent contractors and would benefit from alternative loan qualification methods. 1099's are used as an alternative to tax returns to document the borrower's income.

	<p>When two full appraisals are obtained, use the lesser value for LTV purposes.</p> <p>For rate/term refinance transactions, the subject property must not be currently listed for sale. It must be taken off the market prior to the application date of the new mortgage loan. For cash-out refinance transactions, the subject property must not have been listed for sale for at least 6 months prior to the application date. If the property was listed greater than 6 months but less than 12 months prior to the application date, the loan is eligible. However, a 10% reduction in LTV is required (cash-out refinances only). For all refinance transactions, the borrower must confirm their intent to occupy the subject property (for primary residence transactions) and/or their intent to retain the property going forward.</p> <p>If an appraisal (either one when two are obtained) indicates the subject property is located in a declining market, reduce maximum LTV by 5%.</p> <p>Appraisals must be ordered through an Impac approved Appraisal Management Company (AMC).</p>
