

NQM Bank Statement Program – Underwriting Guidelines

Guideline Overview

Loans meeting the parameters outlined in these guidelines are consistent with the Dodd Frank Wall Street Reform and Consumer Protection Act's requirement that a borrower have the Ability to Repay the mortgage loan. Documentation standards are designed so that loans are made to borrowers who have demonstrated the ability and have the wherewithal to repay the debt. This program requires review and verification of documentation to ensure that the loan meets Ability-to-Repay (ATR) standards. In regard to any underwriting criteria not specifically addressed in this document, Fannie Mae standards apply.

Program Qualifications

This program is designed for borrowers who are self-employed and would benefit from alternative loan qualification methods. Bank statements (personal and/or business) are used as an alternative to tax returns to document a self-employed borrower's income.

Additional considerations:

- **1099 Contractor:** A borrower who is a 1099 contractor is considered self-employed for this program with acceptable documented confirmation that the borrower is a 1099 contractor. An example is a letter from a tax preparer or CPA confirming the borrower files Schedule C or Schedule E with the IRS (personal tax returns).

Ineligible Self-Employment Sources:

- Foreign businesses
- Businesses that function as a non-profit enterprise

Employment Income: Employed borrowers must have 2 years' continuous employment in the same line of work. All gaps in employment are subject to review and underwriter discretion. Gaps of employment greater than 90 days must be documented and explained. Documentation requirements below:

- Most recent paystub dated no earlier than 60 days prior to the Note Date with YTD earnings (must cover minimum 30 days) + W-2s that cover the most recent 2-year period.
- Written VOE with YTD earnings is required to substantiate overtime, bonus or commission income.

Verification of Employment and Self-Employment:

- **Employment:** A Verbal VOE (VVOE) must be obtained within 10 calendar days prior to the Note Date. The VVOE cannot be obtained on or after the actual Note Date. An updated VVOE is also required within 10 calendar days prior to funding.
- **Self-Employment:** An independent written confirmation of self-employment is required to verify the existence of the borrower's business within 30 calendar days prior to the Note Date. The VVOE cannot be obtained on or after the actual Note Date. An updated VVOE is also required within 30 calendar days prior to funding:
 - From a third party, such as a CPA, regulatory agency, or the applicable licensing bureau, if possible; OR.
 - By verifying a phone listing and address for the borrower's business using a telephone book, the Internet, or directory assistance.

The source of the information obtained and the name and title of the lender's employee who obtained the information must be documented.

Rental Income:

- **Purchase Transactions:** Obtain Appraisal Form 1007. Use 75% of the gross market rent in the rental income calculation.
- **Subject Property Refinances and Non-Subject Properties:** Rental income used for qualification must be documented with an executed lease agreement. The rental amount must be discounted by a 25% vacancy factor unless the borrower can document the most recent three months' receipt of rental income. An expired lease agreement that has verbiage stating the lease agreement becomes a month-to-month lease once the initial lease term expires is allowed with evidence of three months' receipt of rental income.
- **Converting a Primary Residence to an Investment Property:** If the borrower is converting a current principal residence to an investment property, a lease agreement and evidence of security deposit and/or first months' rent may be used to qualify rental income.
- **Converting a Primary Residence to a Second Home:** If the borrower is converting a current principal residence to a second home, both the current and proposed mortgage payments (PITIA) must be used to qualify the borrower for the new transaction.
- **Short-Term Rentals:** Short-term rentals are properties in which the rental term is less than 12 months, relatively variable in duration (e.g. short weekend, two weeks, several months, etc.), and may not be subject to a traditional lease agreement. Short-term rentals are permitted. Proof of receipt for the most recent 12 months is required. Use documented 12 months of payments to derive the monthly rental amount average. If no rent is received, use zero for that month. Most recent months must be consistent with receipt patterns over the last 12 months. Otherwise, explanation and/or additional documentation may be required to determine consistency/stability.

Retirement and Other Income:

- Retirement income and other fixed documentable income is allowed as qualifying income for both a self-employed borrower and for any non-self-employed or retired co-borrower.
- Other non-retirement income from the self-employed borrower (e.g., W-2 wage income) may be used. This other income must be fully documented (i.e., may not use the bank statement documentation).

W2/1099 Transcripts: W-2 only and/or 1099 transcripts from the IRS are required to validate income used to qualify for a wage earning or retirement income borrower and/or co-borrower.

Bank Statement Income Documentation and Calculation Requirements for Self-Employed Borrowers:

Depending on how a self-employed borrower operates their business, multiple bank statement options may be used as detailed below:

NQM Bank Statement Program – Underwriting Guidelines

- All self-employed borrowers must provide a written business narrative inclusive of (but not limited to) a description of their business operations and number of full-time equivalents and/or contractors as well as any other pertinent information.
- Whether using personal or business bank statements, 12 months of bank statements are required
- **Personal Bank Accounts:** This option applies whenever a borrower maintains separate personal and business bank accounts – requirements below:
 - Obtain the most recent 12 months' consecutive personal bank statements and the most recent 3 months' business bank statements (to support the borrower does maintain separate accounts). The Personal Bank Account is used to qualify income.
 - Deposits will be analyzed and averaged to determine monthly income. A reasonable determination must be made that deposits in the personal account came from the business. The separate business account should be cross-referenced to help make that determination. Acceptable examples include but are not limited to the following:
 - The personal account shows incoming transfers from the business account (the business account would also show outgoing transfers into the personal account).
 - Nondescript deposits into the personal account match up to reasonably similar withdrawals from the business account.
 - Unacceptable deposits as identified further below must be excluded from the income calculation. If 12 months of statements are provided and the analysis is inconclusive (e.g. large fluctuations in deposits), the borrower must provide an additional 12 months' personal bank statements showing the same activity levels. A P&L is not required, however, when a P&L is provided, monthly income will be determined from the P&L and verified by the bank statements.
 - When the borrower is an inter vivos trust, personal bank statements in the name of the trust are allowed for qualification.
- **Business Bank Accounts OR Comingled Bank Accounts:** These options apply whenever a borrower maintains separate personal and business bank accounts (Business Bank Accounts) or whenever a borrower utilizes the same bank account for personal and business purposes (Comingled Bank Accounts) – requirements below:
 - Obtain the most recent 12 months' consecutive bank statements
 - Deposits will be analyzed and averaged to determine monthly income.
 - Unacceptable/Excluded Deposits as identified further below must be excluded from the income calculation. If 12 months of statements are provided and the analysis is inconclusive (e.g. large fluctuations in deposits), the borrower must provide an additional 12 months' bank statements showing the same activity levels. A P&L is not required, however, when a P&L is provided, monthly income will be determined from the P&L and verified by the bank statements.
 - Total deposits (after excluding any unacceptable deposits) must be multiplied by the borrower's ownership interest in the business. In order to determine a borrower's ownership interest in the business, documentation such as an Operating Agreement (LLC) or Articles of Incorporation (S-Corp) is required.
 - Total deposits (after applying ownership percentage) must be further reduced by one of the following options:
 - A flat 50% expense factor may be utilized; **OR**,
 - A third-party CPA/accountant/tax preparer produced written statement specifying the actual expense ratio of the business (including cost of goods sold and all other business expenses) based on the most recent year's filed tax returns. Such statement must not include unacceptable disclaimer or exculpatory language regarding its preparation. **Regardless of the expense ratio noted on the written statement, a minimum 10% expense ratio must be applied in all cases (e.g. CPA statement says 5% expense ratio – a 10% expense ratio must still be applied);** **OR**,
 - A third-party CPA/accountant/tax preparer produced Profit and Loss (P&L) statement accompanied by a written statement that the CPA or tax preparer has reviewed the P&L. The P&L and accompanying statement must not have unacceptable disclaimer or exculpatory language regarding its preparation. Net income from the P&L will be used for qualifying provided revenue is supported by the bank statements provided (i.e. the deposits on the bank statements must be at least 75% of the Gross Receipts on the P&L).

Unacceptable/Excluded Deposits – not limited to the following:

- Cash advances from credit cards
- Income sources already taken into account
- Non-business related account transfers
- Tax refunds
- Product returns/credits
- Gift funds
- Credit line deposits/business financing
