

iQM Bank Statement Program – Underwriting Guidelines

Underwriting Philosophy

Impac takes a common sense approach to underwriting a borrower's creditworthiness to determine the willingness and ability to repay the loan. Each applicant has a different situation and each loan is weighed on its own merits. Our goal is to help good borrowers with their financing needs while mitigating risk for the company. The iQM programs are high risk loans. Impac will only approve loans for which the company has a reasonable belief that the borrower has the ability to repay the subject loan. This reasonable belief is based upon information provided by or independently verified by an independent third party. Any irregularity in borrower profile, documentation provided, or property used to support the debt may be cause for denial of the loan.

Program Highlights

Self-Employed using Bank Statements with or without Asset Amortization

- One borrower must be self-employed and may have a W-2 co-borrower
 - Self-employed borrower must have minimum 2 years' self-employment in the same business
- Self-employed borrowers qualified using personal and/or business bank statements for the most recent 12-month period
- Assets must be traditionally documented
- Loan amounts up to \$3 million
- DTI up to 50% (See *Qualifying Rate and Ratios*); 55% with certain conditions
- Credit scores as low as 600
- Borrower may use an asset amortization formula to derive additional qualifying income

NOTE: Loans that are eligible for sale to a government-sponsored enterprise (GSE) – the Federal National Mortgage Association (Fannie Mae) or the Federal Home Loan Mortgage Corporation (Freddie Mac) – are ineligible for any iQM Series programs.

Guideline Overview

Loans meeting the parameters outlined in these guidelines are consistent with the Dodd Frank Wall Street Reform and Consumer Protection Act's requirement that a borrower have the Ability to Repay the mortgage loan. Documentation standards are designed so that loans are made to borrowers who have demonstrated the ability and have the wherewithal to repay the debt. This program requires review and verification of documentation to ensure that the loan meets Ability-to-Repay (ATR) standards. In regards to any underwriting criteria not specifically addressed in this document, Fannie Mae standards apply.

Program Qualifications

This program is designed for borrowers who are self-employed and would benefit from alternative loan qualification methods. Bank statements (personal and/or business) may be used as an alternative to tax returns to document a self-employed borrower's income. In addition, a self-employed borrower may supplement bank statement income with additional income derived from an asset amortization formula.

iQM Bank Statement Program – Underwriting Guidelines

Employed Borrowers: Most recent paystub including year-to-date earnings (covering minimum of 30 days) and two years W-2s; or Traditional Written Verification of Employment with 30 days of paystubs and 2 years W-2s. Must have 2 years continuous employment in the same line of work. Gaps of 90 days or less may be accommodated with adequate explanation. W-2 only and/or 1099 transcripts from the IRS are required for the wage earning or retirement income co-borrower.

All borrowers must be qualified using current verifiable income, not projected income.

Self-Employed borrowers: A borrower with a 25% or greater ownership interest in a business is considered self-employed and must be evaluated as a self-employed borrower. Borrower must document two years current continuous self-employment with business license or statement from corporate accountant/CPA confirming the same. Other documentation from third parties may be acceptable on a case by case basis (e.g., letter from an attorney). Acceptable business license must be verified by third party (e.g., government entity, borrower's business attorney). Borrowers whose self-employment cannot be independently verified are not eligible. In instances where a license is not required (e.g., choreographer), a letter from a CPA confirming employment will be considered in lieu of a license on a case by case basis.

Note: Businesses that function as a non-profit enterprise are ineligible for self-employment treatment.

1099 Contractor

A borrower who is a "1099 contractor" may be considered self-employed for this program with confirmation from a CPA that the borrower is a 1099 contractor and files Schedule C or Schedule E with the IRS (personal tax returns).

Non-taxable income

Non-taxable income may be grossed up by 15% for qualifying (e.g., Social Security)

Service & Tip Industry

Due to the cash nature of the service and tip industry, those borrowers may participate the bank statement program. Full documentation is required for employment. Base salary is verified with pay stubs and W2s. Qualified tips are averaged over time. Utilize the bank statement analysis to determine tip income.

Borrowers whom obtain their income primarily in the form of service fees or tips, are not required to have a business license. At least two corporate reference letters are required. Previous 12 months bank statement deposits will be utilized to calculate income. **No P&L is required.**

Retirement and Other Income: Retirement income and other fixed documentable income is allowed for qualifying income for both a self-employed borrower and for any non-self-employed or retired co-borrower. Non-taxable income may be "grossed up" by 15%.

- Other non-retirement income from the self-employed borrower (e.g., W-2 wage income) may be used. This other income must be fully documented (i.e., may not use the bank statement documentation).

Rental Income: Rental income used for qualification must be documented with lease(s). Use 75% of lease rent amount minus PITIA for net rental income.

- Airbnb or similar such rentals are not acceptable.
 - For non-subject (other) properties, Airbnb income is allowed per the below formula: Use a 12-month average (from bank statement deposits) of the Airbnb deposit income LESS a 25% vacancy factor and less the PITIA on the non-owner property to calculate either a negative or positive for the rental property.

An expired lease agreement that has verbiage that states the lease agreement becomes a month-to-month lease once the initial lease/rental term expires is allowed.

Boarder Income

Income from boarders in a borrower's principal residence or second home is not acceptable qualifying income with the exception of the following:

- When a borrower with disabilities receives rental income from a live-in personal assistant, whether or not that individual is a relative of the borrower, the rental payments can be considered as acceptable stable income in an amount up to 30% of the total gross income used to qualify the borrower. Personal assistants typically are paid by Medicaid Waiver funds and include room and board, from which rental payments are made to the borrower.

Borrower Affirmation for Accurate Income and Debts

A *Borrower Affirmation* document must be signed at closing confirming the income and loan terms on the final 1003.

Self Employed Income Calculation

Bank statements are used to calculate and show consistency of income for the self-employed borrower.

IQM Bank Statement Program – Underwriting Guidelines

If personal and business bank activity are combined in one bank account: Borrower is to provide the most recent twelve (12) months consecutive bank statements from the same account. The deposits will be analyzed and averaged to determine monthly income. See Income Evaluation below for income determination.

If the borrower maintains separate bank accounts for personal and business, only personal bank statements will be used for qualifying. The borrower is to provide the most recent twelve (12) months consecutive personal bank statements and three (3) months business bank statements (to support the borrower does maintain separate accounts). The deposits will be analyzed and averaged to determine monthly income. If the analysis is inconclusive (e.g. large fluctuations in deposits) the borrower **MUST** provide an additional twelve (12) months personal bank statements showing the same activity levels. P&L is not required, however, when a P&L is provided, monthly income will be determined from the P&L and verified by the bank statements.

When the borrower is an inter vivos trust, personal bank statements in the name of the trust are allowed for qualification.

For both the combined bank statements and the separate bank account scenarios, beginning and ending balances will be evaluated and must support the overall transaction requested. Low beginning and/or ending balances may require additional documentation up to and including 1040s, 1065s, 1120s, etc.

Option to use only business bank statements

Borrower is to provide the most recent twelve (12) months consecutive business bank statements. If the borrower has separate business and personal accounts and the personal account does not show sufficient deposits to qualify, underwriter may use Income Evaluation below to determine qualifying income.

Income Evaluation

Underwriter will evaluate the type of borrower/business using a **50% expense factor** applied to business related deposits. **If the 50% expense factor allows the borrower to qualify then no further income documentation is required.**

If the type of business operates more efficiently or typically has a materially different expense factor (higher or lower), the underwriter may use one of the following:

- A CPA or tax preparer produced Profit and Loss (P&L) statement that has been Reviewed by the CPA or tax preparer, the CPA or tax preparer states it has Reviewed the P&L in writing, and the P&L and accompanying statement do not have unacceptable disclaimer or exculpatory language regarding its preparation; **or,**
- A CPA or tax preparer produced written statement specifying the actual expense ratio of the business (including cost of goods sold and all other business expenses) based on the most recent year's filed tax returns. Such statement shall not include unacceptable disclaimer or exculpatory language regarding its preparation.

The expense factor per the P&L or CPA or tax preparer produced statement must be reasonable. The annual deposits on the bank statements must be at least 75% of the gross receipts per the P&L. If a CPA or tax preparer produced statement is provided, apply the stated expense factor to calculate the qualifying income.

Examples:

50% expense factor

Total business related deposits = \$240,000
 minus 50% expense factor = \$120,000
 Usable business related deposits for qualification = \$120,000

Optional CPA-Reviewed P&L (expense factor extracted from P&L)

Gross receipts from P&L = \$200,000
 Expenses from P&L = \$90,000
 Expense factor = Expenses / Gross Receipts = \$90,000 / \$200,000 = 45%
 Total business related deposits = \$180,000
 minus 45% expense factor = \$81,000
 Usable business related deposits for qualification = \$99,000

Optional CPA-prepared Expense Factor

Total business related deposits = \$240,000
 CPA-prepared expense factor: 40%
 minus 40% expense factor = \$96,000
 Usable business related deposits for qualification = \$144,000

When the optional P&L is used:

Expenses must be reasonable for the type of self-employment. The P&L will be used for qualifying; revenue must be supported by the bank statements provided. Annual deposits on the bank statements must be at least

IQM Bank Statement Program – Underwriting Guidelines

If the deposits were less than \$75,000 the loan would not meet the guidelines.</p> <p>Up to 24 months of bank statements may be required at the underwriter’s discretion. Income situations that may require additional bank statements for review include but are not limited to <u>inconsistencies in cash flows consistent with occupation type or seasonal types of self-employment</u>. In simplified terms, a check has been presented for clearance, but the amount written on the check exceeds the available balance in the account.</p> <p>An NSF will be counted against the borrower when the borrower’s account is overdrawn. This is the same for “non-sufficient funds” as “over-drafting,” whether or not such “overdraft protection” is enabled.</p> <p>Returned check situations (e.g., from borrower’s accounts receivable) that cause NSFs will be considered separately. Returned checks that do not result in a negative balance are not considered NSFs.</p> <p>A distinction is made between overdrafts and NSFs covered with borrower’s own funds (e.g., savings accounts, “sweep” accounts) versus use of a line of credit or credit card accounts to cover NSFs. In order to use this treatment there cannot be a fee associated with curing an overdraft.</p> <p><u>Excessive NSFs will be highly scrutinized and may cause the loan to be deemed ineligible.</u></p> <p>The bank statements should show a trend of <u>ending balances that are stable or increasing</u> over the 12 month (or other examination) period.</p> <p>Decreasing income trends must be explained; additional documentation may be required. Low ending balances must be explained; additional documentation may be required. Net deposits must not reflect any other income sources already taken into consideration (i.e. deduct SS payments, W-2 wage earnings, etc., that have already been used for income calculation).</p> <p><u>Asset Amortization</u> The borrower may <u>supplement self-employment income with Asset Amortization</u>.</p> <p>Asset amortization is a calculation used to generate a monthly income stream from a borrower’s personal assets. This is because the expiration of a lease agreement for rental housing or an automobile typically leads to either a new lease agreement, the buyout of the existing lease, or the purchase of a new vehicle or house.</p> <p><u>Revolving Charge/Lines of Credit</u> – Revolving charge accounts and unsecured lines of credit are open-ended and should be treated as long-term debts and must be considered part of the borrower's recurring monthly debt obligations. These trade lines include credit cards, department store charge cards, and personal lines of credit. Equity lines of credit secured by real estate should be included in the housing expense. If the credit report does not show a required minimum payment amount and there is no supplemental documentation to support a payment of less than 5%, the lender must use 5% of the outstanding balance as the borrower's recurring monthly debt obligation. If a revolving account balance is to be paid off at or prior to closing, a monthly payment on the current outstanding balance does not need to be included in the borrower's long term debt (DTI ratio). EXHIBIT A

Borrower Affirmation – Bank Statements Used to Qualify

Date:

Loan No

Borrower Name:

1. I understand that my monthly payment on this loan will be as follows:
 - Fixed Mortgage
 - For _____ years
 - My monthly payment is \$ _____
 - Adjustable Rate Mortgage
 - For the first _____ years
 - My monthly payment is \$ _____
 - I understand my payment may adjust (more than once) after the first _____ years.

2. I understand the checked items below on this property will be approximately this amount per month \$
 - Property taxes
 - Hazard Insurance
 - Flood Insurance
 - Mortgage Insurance

The checked items above will be impounded.

The items not checked will not be impounded; and if not impounded I am responsible to pay them directly.

3. I believe I can afford to make the monthly payment on the loan.

4. I am not aware of anything in the future that will affect my ability to make this loan payment.

5. If my loan program did not require that I submit my prior tax returns, I understand that if I had provided additional verifiable documentation of my income, such as my tax returns or W-2 wage statements or other documentation deemed necessary to support my income, I may have been able to qualify for a loan with different loan terms or conditions such as a lower interest rate.

NOTE: If there is a discrepancy between the terms in this document and the actual loan documents, the terms of the loan documents prevail.

I certify that the above information and the information on the final Uniform Residential Loan Application (Form 1003) is true and correct as of this day and that it represents an accurate picture of my financial status.
