Creek Fire – CA

The Creek Fire started on September 4, 2020, burning in a timber-rich area of the Sierra National Forest. It has grown to 143,929 acres with 0% containment as of Tuesday, September 8, 2020. Although FEMA has yet to make a federally-declared disaster declaration, certain areas in Fresno and Madera Counties are at risk. As a preemptive measure due to uncertainty of the massive wildfire, Impac is temporarily ceasing funding in the following counties and zip codes:

- Fresno County Danger Zip Codes: 93602, 93605, 93634, 93664, 93666
- Madera County Danger Zip Codes: 93604, 93643, 93644

We will re-evaluate in the coming days and additional zip codes may be added pending further development.
