## **Incident Periods**

Loan files containing appraisal reports with an effective date prior to the "incident start date" are ineligible for funding without an accompanying property inspection product dated after the "incident end date".

Loan files containing appraisal reports with an effective date on or after the "incident start date" are ineligible for funding without an accompanying property inspection product dated after the "incident end date".

Appraisal reports with an effective date after the published "incident end date" require no action and may be funded provided there is no indication from the appraiser that there is an adverse impact on the property's value, condition, or marketability as a result of the disaster.

For originations on or before the "incident end date," Appraisal Waivers returned on the AUS Cert (e.g. PIW or ACE) may be used provided the appraisal Waiver language is present on the final AUS cert, and the accompanying property inspection product dated after the "incident end date" is obtained.

- For originations after the "incident end date," an Appraisal Waiver may be used provided it meets the same requirements notwithstanding the requirement to obtain the accompanying property inspection product (i.e. an accompanying property inspection is not required).

All property inspection products must be dated after the published "incident end date" to allow loan file funding.
